

**Experts in RoSH Barrel Zinc Clear Plating of Fasteners,
Small parts, and Stampings.**

- Six individual rectifier-controlled plating cells with solution-flow-through to deliver more zinc for consistent, uniform thickness.
- Our automated and manual QA process discipline prevents mixing different part numbers run sequentially.
- 5 – 7 business day turnaround with expedited processing and shipping available.
- Serving industrial, aerospace, and military fastener manufacturers with custom metal finishing services.
- Over 96 years of experience, working with our customers to “figure out” solutions that work and achieve right-the-first-time metal finishing and on-time delivery.

“We have entrusted our plating work to the Erie Plating Company for more than 30 years and have been a true partner to our business in that time. They are reliable, collaborative, and solution-oriented helping us to solve all of our plating needs. They are proactive in voicing concerns and have gone the extra mile for us every time we’ve needed them to. Having worked with them so closely my whole career, there is no other company I could endorse as strongly as them.”

Ted Simpson
Supply Chain Manager,
PennEngineering
